# The Hunting Blind With A View!

**360 Pro**

**360 Shootin House**

**360 Standard**

**Shanty Hunter**

Your search for the perfect hunting blind is finally over! From the "no blind spot" view, to the whisper quiet windows, to the fit and finish that is second to none; you'll soon see why the 360 Hunting Blinds are the blinds of choice for many hunters.

**All 360 Hunting Blinds Feature:**

- Wood frame construction (much quieter than fiberglass or plastic)
- Composite Exterior (will last for many seasons)
- Weighted, sliding window system (very quiet, one hand operation)
- Tinted windows (keeps you hidden from wary game)
- Peep windows at standing height
- Integrated vent above door (this can be closed if desired)
- Carpeted shooting rail at each window
- Carpet floors (helps to keep the inside of the blind quiet)
- 4x4 pockets in floor of blind for wood stands (no extra brackets)
- Heavy duty roof (never worry about snow load crushing the roof)
- Seamless, waterproof roof coating (quiet and long lasting)
- Super tight, efficient design (no need for additional insulation; water and cold stay out, scent stays in)
- 80" inside height (no need to stoop in these blinds)
- Locking door with sliding 18" w x 12" h window
- Available fully assembled or in kit form (gives you more options for those "hard to reach" hunting spots)

Our flagship blind, the **360 Pro** was the first 360 blind to be introduced and is still our top seller today. This blind has carpeted walls, 9 gun/crossbow windows, 4 archery windows, and plenty of room for 2 hunters! Archery hunters love this blind!

**360 Pro - \$2500**

Want more room? We listened to our customers' feedback and introduced the **360 Pro XL**! This blind provides an additional 5 sq. ft. of interior room; more than enough for a hunter and camera man with all their gear. Window layout include 2 more archery windows.

**360 Pro XL - \$2950**

Some would say the **360 Shootin House** is the perfect blind. The wide windows on each side are perfect for gun or crossbow hunters, while archery hunters are sure to love the tall windows in each corner. This blind has carpeted walls and its square design provides plenty of room for 2 hunters and their gear.

**360 Shootin House - \$2500**

The **360 Standard** is designed with the gun hunter in mind. Exact size and design as the **360 Pro** blind but without the archery windows and carpeted walls. Plenty of room to keep 2 hunters warm and dry on those miserable, cold, winter days!

**360 Standard - \$2200**

Looking for a one person gun or crossbow blind that won't break the bank?! The **Shanty Hunter** blind is your answer! No more getting cold and wet. This is a great entry level blind without sacrificing the quality and value that 360 has become known for.

**Shanty Hunter - \$1600**

- 12" w x 18" h gun/crossbow windows (8)
- 12" w x 32" h archery windows (Pro 4, XL 6)

- 29" w x 16" h gun/crossbow windows (3)
- 12" w x 32" h archery windows (4)

- 12" w x 18" h gun/crossbow windows (12)

- 29" w x 16" h gun/crossbow windows (3)
